### Expression of Interest

#### **Deadline for EOI: Friday April 29, 2011**

A call for proposals for the funding of clinical trials to treat Chronic cerebro-spinal venous insufficiency (CCSVI) in patients with Multiple Sclerosis is being developed at this time. The key parameters of the call will include:

- Requirement of research team to work with the research team in Saskatchewan (once announced) to develop complementary clinical trials that use common protocols and outcome measures.
- At least 50% of the patients in the trials will be from Manitoba.
- A portion of the research team must be from Manitoba.

An Expression of Interest is required to notify MHRC of researchers who are interested in applying to MHRC for funding of a clinical trial on the treatment for CCSVI in Multiple Sclerosis. The EOI is also required for researchers not currently part of a research team, but who are interested in contributing to a trial.

MHRC will use the expressions of interest to connect interested researchers and allow MHRC time to work with the applicant(s) to ensure eligibility requirements are met.

Please use the MHRC Form (attached) and email to [info@mhrc.mb.ca](mailto:info@mhrc.mb.ca).

<b>Applicant Name:</b>	
<b>Title:</b>	
<b>Organization:</b>	
<b>Address:</b>	
<b>E-mail:</b>	
<b>Phone number:</b>	

**Brief description of the research team (or individual researcher), including location of members, roles and responsibilities.**
